Summary

"Hi there! I'm Mahdi Kashavarzian, a professional graphic designer and a computer engineering student. With over 3 years of experience in the graphic industry, I am passionate about this field and always eager to learn and improve my skills.

At the age of 20, I live in Tehran and I enjoy working in a team. With my studies in computer engineering, I have technical knowledge and expertise in areas such as web design, programming, and user interface design.

My goal in this profession is to enhance my skills and create creative and appealing designs. I am committed to delivering the best results to my clients and always strive to meet their needs and expectations.

If you are interested in collaborating on graphic design, web design, or any related projects, feel free to get in touch. I am always ready to work on new and exciting projects."
